## Special Edition

### Message from our Mayor

Citizens of Morris,

We live in an interesting time, and are currently heading into a situation very few of us would have imagined even two weeks ago. COVID-19 has become a global pandemic, and with its ease of transmission, we can expect it to eventually arrive in our community.

How much this virus will affect us will be determined by how well we all work together to keep each other safe. The Province of Manitoba is updating its recommendations on a daily basis, and self-isolation and social distancing are also being done as preventative measures in Manitoba. However, the lack of compliance by even one positive individual could lead to hundreds of being sick. So please try and comply as best you can with these recommendations.

The Town will continue to share health information via social media as it comes available. If you do not have online or social media access, please let the Town Office know at **204-746-2531**, and we will find an alternate way to get you important information.

Our community has pulled together to ensure we will have essential services available in our community if the situation becomes more complex. However, there may be a need for volunteers to make phone calls or help with deliveries at some point in the future. If you are interested in helping, please call the Town office at 204-746-2531, or by e-mail at [info@townofmorris.ca](mailto:info@townofmorris.ca)

I am very proud of our Town, and am confident in our ability to make it through this latest challenge. Let us just always remember the health of others in our community is in our hands.

Scott Crick, CPA (CGA), MBA

Mayor, Town of Morris

**STOP THE SPREAD OF GERMS**

Help prevent the spread of respiratory diseases like COVID-19.

- Avoid close contact with people who are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Avoid touching your eyes, nose, and mouth.
- Clean and disinfect frequently touched objects and surfaces.
- Stay home when you are sick, except to get medical care.
- Wash your hands often with soap and water for at least 20 seconds.
